

AVAZTART

Guides

Communications

You can send messages to each other within Avaztart. There are some restrictions for Coaches and Investors. Within a Team, you can send feeds that will only be seen by the Team members.

The pinboard

With the right plan, everybody can write a post in the pinboard. Except Coaches and Investors. When they want a post in the pinboard it's called an add and they will have to pay for it.

A post can be liked, commented, or sent to others. Intentions with pin board is to give everybody a way of saying that they exist and broadcast this post to others, as well as share interesting information.
